

RumenWorks Molasses Plus

Rumenworks Molasses Plus is a molasses fortifier designed to be mixed with molasses to produce a balanced lick supplement.

- ▶ **Directions for Use:**
Mix Rumenworks Molasses Plus at a rate of 20kg to 220L of molasses.
- ▶ **Mix thoroughly before feeding out.**
- ▶ **To achieve best results cattle should be consuming at least 2% of their body weight daily in dry matter form as dry paddock feed, hay or silage.**

Feed out troughs should be placed at least 250m from water to encourage stock to graze the entire paddock.

If consumption exceeds 4kgs per day for adult cattle (450kgs plus) or 3kgs for lighter cattle under 300kg, discontinue using Molasses Plus and molasses as a supplement. If this occurs please contact your local Rumenworks Territory Manager to provide formulated feeding advice.

On introduction of Rumenworks Molasses Plus intake may be higher, but this should decline as cattle meet their nutritional deficiencies.

- ▶ **DO NOT Feed Directly in Concentrate Form.**
- ▶ **This product is for cattle only.**
